BARCO

Nazwa

Barco CDMS-3000 Control Display & Management System

Cena

0,00 zł

Producent

Barco

OPIS PRODUKTU

CDMS-3000 is a Control Display & Management System, featuring a pioneering 3 x 4 inch AMLCD panel with VGA resolution. It combines high brightness and contrast with compact dimensions, low weight and excellent energy efficiency.

A complete product family

The CDMS-3000 comes as a complete product family, including the civil CDMS-3739 (ARINC 739), the military-oriented CDMS-3153 (combo ARINC-429 and MIL-STD-1553), and the versatile CDMS-3702, which hosts Barco's unique MOSArt platform. This MOSArt-equipped version allows customers to develop or integrate their own application (e.g. FMS or mission solution) on the flexible CDMS-3000 platform. Various keyboard sizes with different engravings and colors are available, enabling form-fit-function compatibility with existing units.
