BARCO

Nazwa

Barco CHDD-254 5 x 4 inch Cockpit Head Down Display

Cena

0,00 zł

Producent

Barco

OPIS PRODUKTU

The CHDD-254 is an advanced, 5 x 4 inch avionics display that accepts both digital video inputs (DVI) and most of the currently available analog video inputs (Composite, RGB, STANAG,...). It is fully compatible with Barco's PU-2000 Processing Unit.

High brightness, excellent contrast

Equipped with sunlight-readable Active Matrix Liquid Crystal Display technology, the CHDD-254 combines high brightness with an excellent contrast. The use of integrated electronics allows for a compact footprint (maximum 4.5" depth) and low power consumption.

Features

- 2 Digital Video Inputs (DVI)
- Various possible analog video inputs (video composite, VGA to XGA RGB (SoG or +H,+V), STANAG 3350B & C,...)
- Excellent visual performance
- Extra wide viewing angle
- Compact design
- Various keyboard options
- Option NVIS Class B compatibility
- Ambient luminance control
- Compatible with PU-2000 Processing Unit
- Extensive Built-In Testing (BIT)
